

Please do something about Sinclair's decision to air the Kerry smear ad. I believe that the nation needs the FCC in critical times such as these, where a presidency and the future of our country hangs in the balance.

whoever wins this election, it must not be tainted with the claims of illegitimacy that haunted us since 2000 and the Florida debacle.

Please pressure Sinclair not to air the Kerry bashing campaign, since it is factually suspect and clearly politically motivated.

One of the things that supposedly makes this country great is that we have rules that ensure that free time be given to politicians competing for our vote. This action by Sinclair blatantly disregards that.

Sincerely,

James McCabe
